

# SocialBox Documentation

Created on 10/05/2011 by JonasDoebertin

## Thank you for purchasing my plugin!

With SocialBox you get an absolutely easy to use Wordpress Plugin which enables you to add a sleek social widget to your WordPress site or blog. It displays the current numbers of Facebook likes, Twitter followers and Feedburner feed subscriptions. You can enter default values which will be shown if the related api is not reachable.

## Installation

To install this plugin into WordPress, simply use the built in installer.

Go to "Plugins > Add new", choose "Upload" and select the file *socialbox.zip* which is provided within this download.

## Widget Settings

### Social Accounts

If you want to hide one of the networks leave its field blank.

#### Facebook

Enter your (pages) Facebook ID (e.g. 13274077007) or name (e.g. nettutspus).

#### Twitter

Enter your Twitter screenname (e.g. envatowebdev).

#### FeedBurner

Enter your feeds Feedburner name (e.g. nettuts).

### Default Values

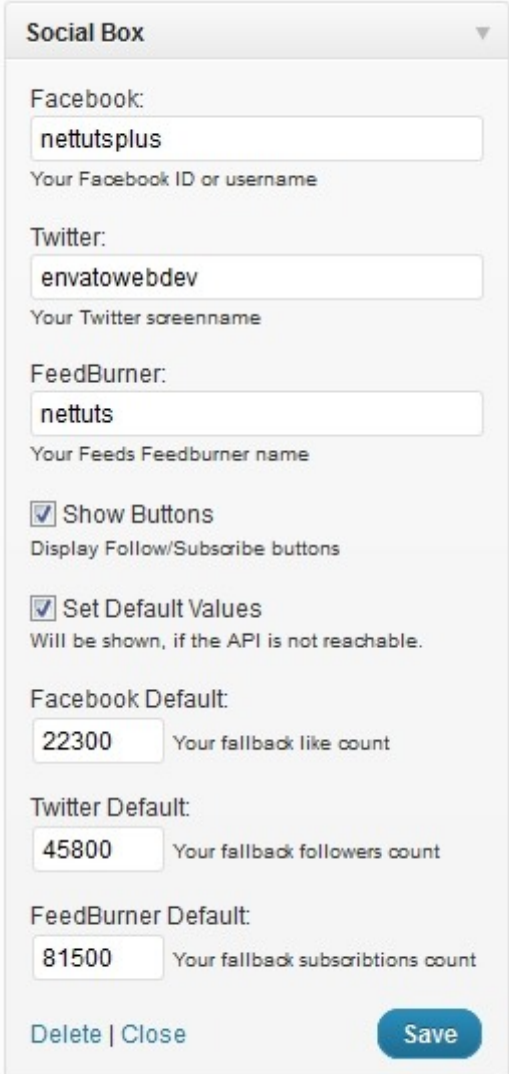

Enter the default values. These will be displayed if the related api is not reachable.

## Additional Settings

### Show Buttons

Check this option if you want to display the larger Follow / Subscribe buttons.

**Note:** If the buttons are enabled, the sidebar containing the widget should have a width of at least 250px. Otherwise the buttons won't fit into the widget correctly.

The screenshot shows the 'Social Box' settings panel. It contains the following fields and options:

- Facebook:** Input field with 'nettutspus' entered. Label: 'Your Facebook ID or username'.
- Twitter:** Input field with 'envatowebdev' entered. Label: 'Your Twitter screenname'.
- FeedBurner:** Input field with 'nettuts' entered. Label: 'Your Feeds Feedburner name'.
- Show Buttons**  
Display Follow/Subscribe buttons
- Set Default Values**  
Will be shown, if the API is not reachable.
- Facebook Default:** Input field with '22300' entered. Label: 'Your fallback like count'.
- Twitter Default:** Input field with '45800' entered. Label: 'Your fallback followers count'.
- FeedBurner Default:** Input field with '81500' entered. Label: 'Your fallback subscriptions count'.
- Buttons: 'Delete | Close' and 'Save'.

## Support

If you have any further questions or you need support using this Widget, feel absolutely free to post a comment on CodeCanyon or send a message directly to [support@jonasdoebertin.net](mailto:support@jonasdoebertin.net). I will do my very best to help and assist you as quick as possible.
